

# Jorum Deposit Chooser

**Attention**  
Access to Jorum is only available via the UK Access Management Federation, please contact your local support team for help. For further information on joining the UK Access Management Federation visit the [join section of the UKAMF website](#).

**Step 1**  
Is your Institution a member of the UK Access Management Federation?

**? Help**  
The UK Access Management Federation for Education and Research provides a single solution to access online resources and services for education and research.

**Step 2**  
Do you wish to make the resource(s) freely available and licensed with a Creative Commons Licence?

**? Help**  
JorumOpen will be the choice for those who wish to deposit/reuse content whose creators/owners are willing and able to share materials for anyone to use via the web under Creative Commons (CC) licences. With a Creative Commons licence, you keep your copyright but allow others to copy and distribute your work provided they attribute your work with conditions you specify.

**Step 3**  
Are you already a registered depositor for the JorumUK service?

**? Help**  
JorumUK will be the choice for those creators/owners that need to restrict the availability of a resource to UK Further and Higher Education Institutions. Initially resources deposited within JorumUK will only be available to UK members of Jorum, who have an institutional subscription and user account.

**✓ JorumOpen is the best deposit option available**

**Attention**  
Access Institutions need to sign the Jorum Deposit Licence in order to become a Jorum Contributor. Nominated individuals who have the authority to deposit material in JorumUK on behalf of the institution are listed on the Schedule 1 licence. Visit the [JorumUK deposit page](#) for further information on institutional subscription and individual registration.
